Security Incident Report

Report ID:	RPT-FF3F519C7E17
Generated:	2026-09-28 14:55:03
Analysis Duration:	0.0 seconds
Threat Score:	100 / 100
Highest Observed Severity:	HIGH
Target Kingpin / Accused:	Accused Entity (CF007) (CF007)

Executive Summary

The analysis recorded 10 alert(s), 2 correlated incident(s), and 57 active flow(s). The observations indicate network activity requiring analyst review; this report details verified SIM-swap transaction paths and target centrality signatures.

Recommended Analyst Actions

- Investigate the observed source host and validate whether the connection is authorized.
- Review relevant endpoint and network logs for the recorded time range.
- Preserve the listed alerts, flow records, and supporting evidence.
- Issue Sec 102 CrPC directives to Nodal Banks to freeze target Kingpin (CF007) and Mule accounts.
